EXECUTIVE PROFILE

Accomplished Technology Consultant and Systems Architect with 10+ years of experience designing and delivering scalable financial technology systems, digital banking platforms, trading systems, crypto platforms, and real-time gaming services. Proven career stability through dual 5-year tenures at BETADRIX and Infotech.

PROFESSIONAL TENURE

BETADRIX - Principal Technology Consultant & Systems Architect

2021 - Present | 5 Years | FinTech, Real-Time Platforms & Financial Infrastructure

- Engineered financial technology platforms, real-time backend systems, and wallet infrastructure.
- Designed multi-currency wallet services supporting secure deposits, payouts, and balance updates.
- Architected real-time API services and backend infrastructure for gaming and platform operations.
- Built administrative consoles, risk monitoring tools, and reporting dashboards for operational teams.
- Deployed scalable backend services and distributed application architectures using cloud infrastructure.

INFOTECH - Lead Systems Engineer & Consultant

2016 - 2021 | 5 Years | Enterprise Technology, Digital Banking & Payment Systems

- Architected and delivered enterprise digital banking platforms with KYC and user account workflows.
- Implemented payment gateway integrations, transaction processing services, and balance ledgers.
- Engineered scalable enterprise software solutions and modular backend web services.
- Designed structured relational databases and secure application infrastructure for financial data.
- Modernized application backends into reliable, maintainable service-oriented architectures.
